LIFE JACKETS

Keep everyone from the youngest to oldest family member afloat with our line of life jackets and personal flotation devices (PFDs). Whether your perfect lake day includes tubing, wakeboarding, or wakesurfing, we have a size and style to fit every member of your party. With specific models, including our super-soft Neolite Kwik-Dry fabric, we'll ensure your family stays safe and comfortable with every day spent on the water. The United States and

Canada are harmonizing a new standard labeled Level 70. The performance will remain unchanged in terms of buoyancy. This will begin phasing out the other four U.S. Coast Guard "Types" replacing them with U.S. Coast Guard and Transport Canada approved "Levels."

Need help finding the right PFD?

We've highlighted certain product specs next to each PFD family, but be sure to ask your Airhead sales manager for full product specs. Complete product descriptions are also available at Airhead.com.
